AKAMAI TECHNOLOGIES, INC. DEPRECIATION IMPACT ANALYSIS DECEMBER 31, 2022

Effective January 1, 2023, Akamai increased the expected average useful life of its network servers, from five years to six years. This change reflects software and hardware related initiatives to manage Akamai's global network more efficiently. The table below illustrates the decrease (increase) in depreciation expense on network servers in place at January 1, 2023, due to the increase in the estimated useful life. The table below does not include the projected change in depreciation expense associated with network servers placed in service after January 1, 2023.

	2023											
(in thousands)	Q1	Q2	Q3	Q4	2023	2024	2025	2026	2027	2028	To	otal
Decrease (increase) in depreciation expense	\$ 15,929	\$ 14,760	\$ 13,648	\$ 11,767	\$ 56,104	\$ 30,620	\$ (4,137)	\$(40,693)	\$(30,539)	\$(11,355)	\$	_
